

Bronwen Warner

After qualifying as a Physiotherapist in 2001 from the University of Witwatersand, South Africa, Bronwen has developed an extensive set of skills within her profession. Bronwen began her journey of Physiotherapy in the UK at the Neath Port Talbot Hospital as a Specialist community paediatric physio. Within this role, Bronwen was able to develop both her professional skills and her communication skills – which are crucial in a multi-disciplinary environment.

Bronwen is passionate about working with children, particularly in regards to educating and empowering parents and caregivers about early intervention and the promotion of healthy development.

Bronwen is a part time clinician for Technology In Motion, running clinics in Swansea and Cardiff. Within this role the key responsibilities include assessment, advise and

treatment for babies with Plagiocephaly and or/ Brachycephaly, to add to her experience and development as a paediatric physiotherapist.

In 2018, Bronwen joined our wonderful team her at **Equinox** and has excelled in all that she does here with us and we are delighted with the professional service she provides to all of her patients derived from the wealth of experience she has gained within her career.

Key Skills:

- Leading role in managing and providing therapy services for children in local special school (Ysgol Maes Y coed) with complex physical needs.
- Involved in the development and implementation of constraint therapy treatment in children with hemiplegia.
- Involved in revising and updating policies and procedures specific to paediatric therapy.
- Founder and Owner of a private paediatric physiotherapy practice specialising in providing early years intervention and parent education services.
- Successful undertaking and completion of Basic Bobath course 2004 and sensory Integration Level 1 in 2008- enhanced clinical expertise and handling skills exponentially.
